

# ENGINEERING FESTIVAL

Saturday, February 25 • 10 am-2 pm

## Auditorium

- 11 am – STEM Storytime

## Agile City Room

- Interactive demonstrations with robots used in the FIRST Tech Challenge robotics program.
- FRC Team: Girls of Fire
- FTC Teams: Sisters of the Motherboard and Code Sisters

## KidsWorks

Use loose parts to build and engineer your own story with Pictures and Words, LLC.

## KevaWorks

Drones and display. AeroX will have drones on display and answer all your questions about drones as both a hobby and a career. If weather permits, there will be drone demonstrations in the park.

## Lecture Hall

- Test your construction skills with a variety of build challenges using different materials such as cardboard, Legos®, blocks, and Magna Tiles.
- Get hands on experience with the Kaleideum Invention Convention curriculum.

## Little Theatre

Blum Construction will take you on a 3D tour of the reimagined Kaleideum opening in early 2024!

## Great Hall

Learn about architecture and design with Stitch Design Shop.

## Mountains to Sea

- Explore graphite circuits and learn about programs and careers in engineering with Wake Forest University Engineering.
- Learn about 3D printing, making circuits out of fruit, and summer camps with Mixxer.
- Find out how to protect your brain with the Wake Forest University Brain Awareness Council.

## FoodWorks

- Learn about various summer STEM camp opportunities offered by community partners in collaboration with the NC Piedmont Triad STEM Ecosystem.

## Planetarium Shows

- Noon – Laser Special: Wacky Weather (\$2 members, \$3 non members)
- 1 pm – Zodiac Sky Tour (Free)
- 2 pm – Space Live (Free)
- 3 pm – Live Sky Tour (Free)
- 4 pm – Laser Special: Britney Spears (\$2 members, \$3 non members)
